CAREER OBJECTIVE

A motivated and enthusiastic individual with hands on experience in programming and web technologies. Eager to build a career in Full Stack Development while expanding my expertise in UI/UX design. Aiming to apply technical and problem-solving skills to contribute to innovative and impactful solutions. Committed to continuous learning and growth in a dynamic environment.

EDUCATION

ARUNACHALA COLLEGE OF ENGINEERING FOR WOMEN 2023 - 2027
Bachelor of Engineering in Computer Science and Engineering
CGPA : 8.76 (till 4th Sem)

N P MEM VIDYA KENDRA 2021 - 2023
Higher Secondary Education (CBSE)
Percentage: 84%

JOHNS CENTRAL SCHOOL 2020 - 2021
Secondary Education (CBSE)
Percentage: 95%

INTERNSHIP

Shristi Innovative Educational Services, Trivandrum | June 2025

Role: UI/UX Developer Intern

Designed and implemented a responsive UI for the Recipe Hub page using Figma, ensuring seamless usability across devices.

PROJECTS

Mini Pastel Store | Link

- Many small online stores struggle to provide a simple, aesthetic shopping experience where users can save favourite products and revisit them later after logging in again

- Tools used are: HTML, CSS, JavaScript, React.js, Context API, Local Storage, React Router
- Built a responsive frontend pastel-themed shopping interface with login authentication and persistent wishlist storage per user. Data is restored automatically when the same user logs back in, improving personalization and usability.

Recipe Hub UI Design | Link

- Designed a modern and user-friendly Recipe Finder mobile application interface using Figma. Focused on intuitive navigation, clean layouts, and visual hierarchy to improve usability. Implemented features such as recipe search, cuisine filters, favourite saving, and detailed ingredient views. Applied consistent components, typography, and colour systems to create a seamless user experience.

Student Database | Link

- Manual handling of student records can be time-consuming and error-prone. Built a centralized digital system to easily store, update, and retrieve student information such as name, year of study, and department with quick access and better accuracy.
- Tools used are: React.js, JavaScript, Node.js, MongoDB, HTML, CSS. Implemented smooth CRUD operations with a responsive UI, improving data organization, reducing manual work, and enabling faster and more reliable access to student records.

SKILLS

- **Programming Languages:** C, Python
- **Tools / Platforms:** HTML, CSS, Figma, Canva, VS Code
- **Databases:** MySQL, MongoDB
- **Technologies / Frameworks:** React.js, Node.js

CERTIFICATIONS

- HTML, CSS and JavaScript for beginners, IBM
- JavaScript Course, Scaler Topics
- React JS Foundation Course, Scholar Hat
- Cloud Computing, NPTEL Swayam
- C programming practical approach, Cloud Technologies
- Introduction to Data Analytics, Simplilearn

HONORS & AWARDS

- Won 1st prize in Code Debugging in National Level Technical Symposium (ACEW)
- Won 2nd prize in Webpage designing in National Level Technical Symposium (ACEW)
